PREM DHUMAL

AWS CLOUD ENGINEER

8600368036 | praje925@gmail.com | linkedin.com/in/prem-dhumal-093422243 | github.com/premcloud7

PROFESSIONAL SUMMARY

Entry-level AWS Cloud Engineering candidate with practical exposure to AWS infrastructure, Linux administration, networking and website hosting. Familiar with EC2, S3, EBS, VPC, Load Balancing, Auto Scaling, CloudFront, CloudFormation, CloudWatch, Lambda, DynamoDB, Route 53, IAM roles and AWS CLI. Brings previous professional experience in quality operations, data analysis, reporting and business research. Motivated to solve problems, deliver results, and continue learning in an innovative environment.

TECHNICAL SKILLS

AWS Cloud: EC2, AMI, EBS, Elastic IP, S3, VPC, Subnets, CIDR, Internet Gateway, NAT Gateway, Route Tables, VPC Peering, ALB, Target Groups, Listeners, Auto Scaling Groups, Launch Templates, CloudFront, CloudFormation, Elastic Beanstalk, CloudWatch, Lambda, DynamoDB, Route 53, RDS Migration (basics), IAM Roles, AWS CLI

Linux & Networking: Linux commands, file/directory management, permissions, user/group management, SSH, service management; OSI Model, IP addressing, subnetting, DNS, NAT, HTTP/HTTPS, ports and protocols

Web & Database: Apache (HTTPD), Nginx, website hosting, virtual hosts/server blocks, PHP, PHP-FPM, Node.js, npm, MySQL, MariaDB, SQL basics

Tools & Strengths: Git/GitHub (basic), MS-CIT, Tally; data analysis, communication, problem solving, teamwork, self-motivated

EXPERIENCE

Quality Team | Cummings Company, Phaltan *Nov 2023 – Nov 2024*

- Checked parts and identified defects; performed system transactions using HHT and analyzed data to prepare reports.

Contact Discovery | XDBS Worldwide *Sep 2023 – Nov 2023*

- Used LinkedIn, ZoomInfo and Seamless to retrieve prospect and company contact information.

Business Research | Manalytics B2B ITES *May 2023 – Sep 2023*

- Researched organizations and key contacts using search engines and collected business information for project requirements.

PROJECTS

S3 Static Website Hosting with CloudFront: S3, CloudFront, OAC, HTTPS, HTML — Hosted a static website; configured S3 origin/OAC and verified access through the distribution URL.

Three-Tier Java Web Application on AWS: EC2, VPC, subnets, Nginx, Tomcat, Java, RDS MySQL, JDBC — Configured public/private subnet architecture, reverse proxy and database connectivity.

Dynamic PHP Website Hosting using LAMP: EC2, Amazon Linux, Apache, PHP/PHP-FPM, MariaDB, Bash, User Data — Deployed PHP site, automated initial setup and verified form data in the database.

Node.js / Express Application Deployment: EC2, Amazon Linux 2023, Node.js, Express, npm, Git/GitHub, SSH — Cloned source, installed dependencies, configured port 3000 and tested the application.

Linux Web Server Setup on EC2: EC2, Amazon Linux 2023, Apache HTTPD, Security Groups, HTML — Installed Apache, hosted an HTML webpage and verified public-IP access.

Student Management System using DynamoDB: DynamoDB, NoSQL — Created a table with Student-ID as partition key; added, retrieved, updated and deleted records.

EDUCATION

MBA — Business Analytics & Marketing | Aug 2022 – Aug 2024 | 65%

B.Com | May 2019 – May 2021 | 70%
